

# BUSINESS SUSTAINABILITY COMMITTEE

**The Business Sustainability Committee (BSC)** includes members from more than 100 companies in various industries interested in sustainability issues. The committee supports members to exchange insights, best practices and promote collaboration in environment and sustainability matters through organizing Chamber events and engagement with wider business community through various formats including seminars, conferences, business receptions and other events. The BSC Committee's 2024 strategic plan is grouped around three types of activities: *Advocacy, Business, and Community (ABCs)*.

**Committee Priorities:**

Advocacy-High

Business-Medium (information sharing)

Community-Low (networking)

## Mission

To share and exchange on topics related to business sustainability development, such as carbon emission management, circular economy, energy transition, green finance, circular economy and ESG among other issues.

To improve the policy environment on promoting multinational companies to optimize their sustainable practices in China.

## Main Activities

Following Chinese and global policy and regulatory agenda in terms of green development.

In-depth knowledge sharing on specific topics by industry experts or scholars on cutting-edge issues.

Visit to external organizations, including NGOs, think tanks specializing in environment and sustainability areas.

Networking and exploring potential opportunities to support corporate impact initiatives.

## Past Activities

Panel discussion on COP28 Debriefing and Business Implications with speakers from US Embassy.

Seminar on Circular Economy and Business Sustainability with Paulson Institute and China Association of Circular Economy.
